

This amendment is issued to provide questions and answers:

**Question:**

1) Line items 0004 and 0008 on pg. 1 of solicitation notes that the Government will provide an estimated cost for maintenance/repairs/material as a “NOT TO EXCEED” cost for these line items. What is the level of effort the contractor is to estimate a NOT TO EXCEED value for on each of the bays when pricing these line items? Or will the specific maintenance requirements be addressed after award via Conditions Found Report (CFR) at time of execution and negotiated separately.

**Answer:** Line items 0004 and 1004 will be awarded as a “not to exceed” item. Total quoted prices become the total awarded prices for these line items and cannot be exceeded without written consent from the Contracting Officer by modification to an order/contract resulting from this solicitation. Therefore, contractors shall quote this line item to the best of their ability to include all estimated maintenance/repairs/materials costs (see paragraph 4.3.3 of the Statement of Work).

The closing date of this solicitation remains unchanged. The closing date of this solicitation is **October 16, 2015**. Quotation information may be submitted via email. Submit responses to: [kimberly.rieder@navy.mil](mailto:kimberly.rieder@navy.mil). Reference solicitation number: N00244-15-T-0330 on all documents and requests for information. Quotes must be received **no later than COB 1700 (PST) on October 16, 2015**.
